

# The Highest Premium Hydrogen Enriched Shower Machine.

- GISE AQUA/EG TEC

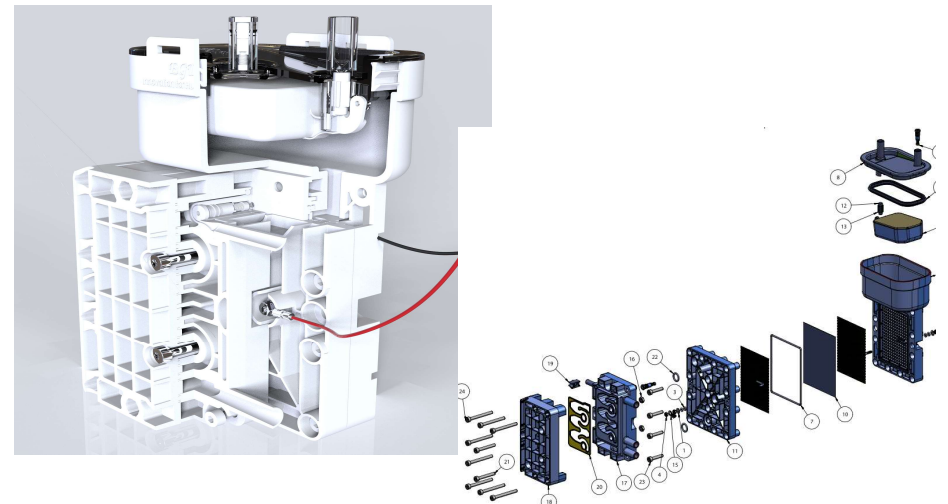

# The Key Features

The larger Hydrogen Generating Module

The Sectional View of Larger Hydrogen Generating Module.

- The H<sub>2</sub> generating module protection system under high water inlet pressure.
- Generating high flow Hydrogen water
- Altering venturi mixing unit

# The Characteristic Points

- The First Development of PEM Type Hydrogen Shower Machine in the World
- The Generating High Flow and High concentrated Hydrogen Water.
- The Long- Lasting Dissolved Hydrogen Water.
- The Adaption PEM that can separate Hydrogen and Oxygen (No 03 water smell!).
- High Durability : To adapt thick Platinum Titanium Plates.
- The Adaption Protect System for H<sub>2</sub> Water Generating Module : High Volume Electrolyzed Water Reservoir.
- Easy to buy Electrolyzed Water : Drug Store- Sterilized Distilled Water.
- The Generating and Producing High Concentrated H<sub>2</sub> Shower Water Regardless of Feed Water .
  - Easy-To-Use : Only One Button and LED System.
  - Constant Flow Control System.
  - International Protection Grade.

# The Benefits and Advantages of HSM

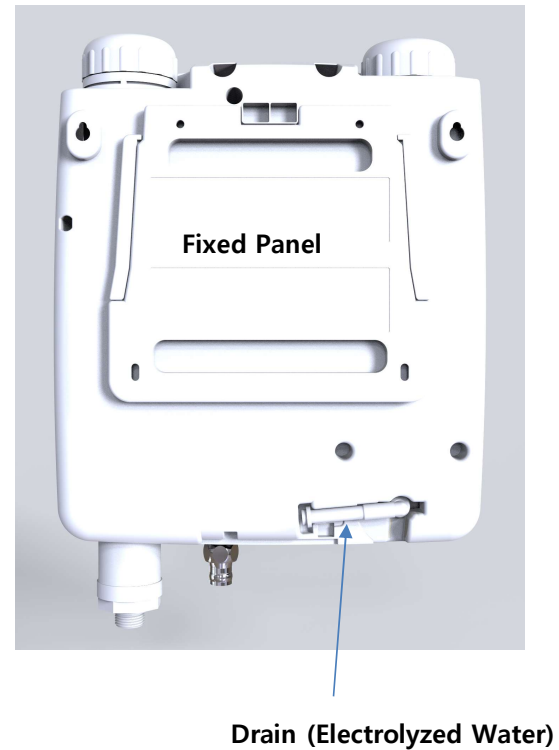

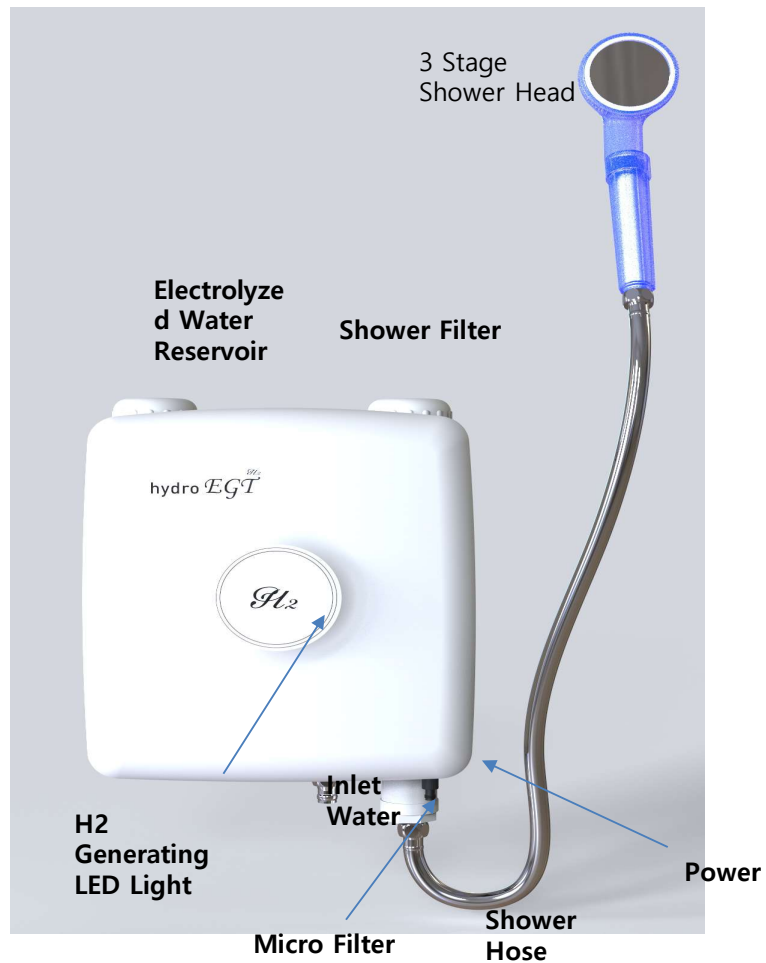

- Diabetes
  - Gout
  - Constipation
  - Diarrhea
  - Hyper tension
  - Heart Disease
  - Systemic Lupus Erythematosus (SLE)
  - Allergy
  - Eczema
  - Blood circulation and metabolism
  - Cancer
  - Weight Loss
  - Etc.
- Hydrogen can choose to neutralize the toxic and strong free radicals and nitrite anion, reduced into water and excreted.
  - Hydrogen has selective antioxidant effect.
  - Hydrogen instrument using water electrolysis to generate rich hydrogen since the molecular weight of hydrogen is very small, strong permeability, diffusion speed is extremely fast, the skin is very easy to absorb. The skin is the body's largest organ and the ability is very large to absorb hydrogen.
  - Absorbed hydrogen can be transported to the body through the skin's blood, and then play a role in healthcare.
  - Skin lightening , freckle removing and anti-wrinkle ; weight loss and better body image; prolong life; anti-aging; anti-inflammatory.

# The Description of HSM

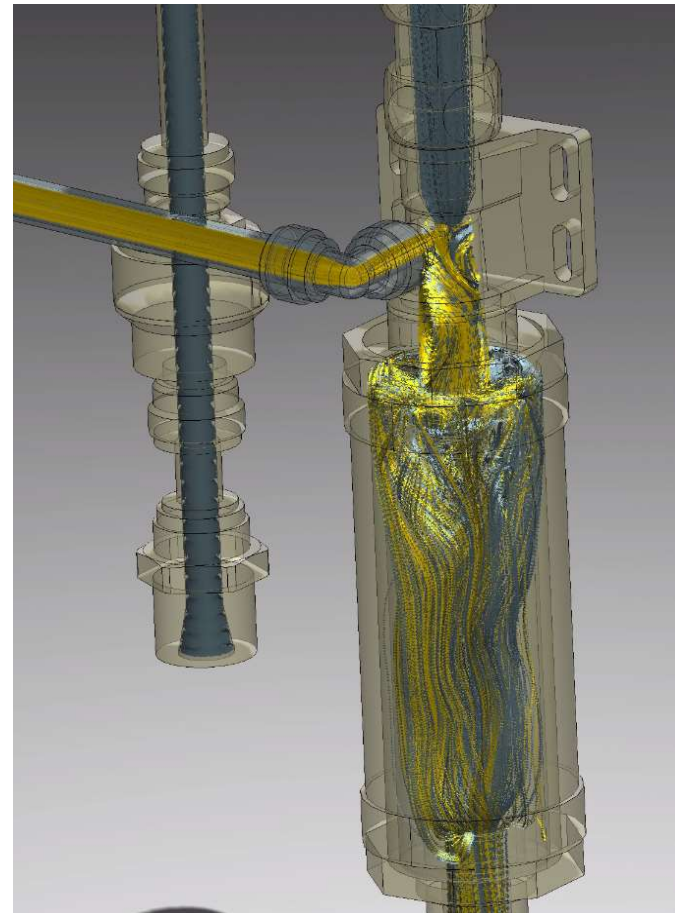

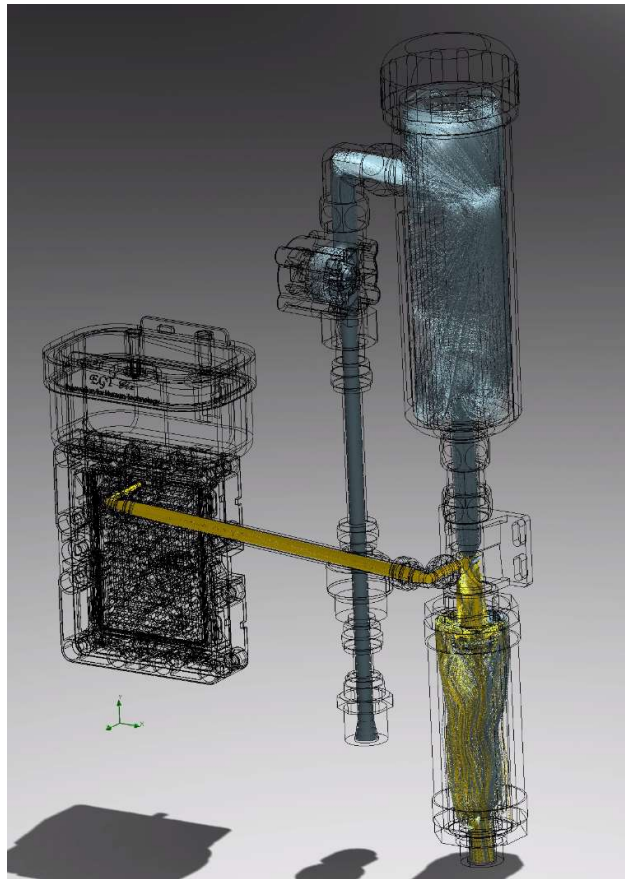

Model Number	EGT-8800
Consumption Power	96 W
Hydrogen Water ppb	800 ppb over
ORP	-350 ~ 550 mV
Adjustable Temperature	0 ~ 50 °C
Net Weight	3.5 Kg
Dimension (mm)	W 300 × D144 × H 352 mm
Hydrogen Shower Water Generating	Mixing H <sub>2</sub> gas with Water
Electric Power	100V ~ 240V 50/60 Hz
